Re: Letter of Recommendation
Tylor Hearn, Blue River Custom Builders Inc

To Whom It May Concern:

I highly, and enthusiastically, recommend Tylor Hearn and Blue River Custom Builders, Inc, for your next construction project! We hired Tylor for our home construction in 2012, and doing so was the absolute best decision; his professionalism, experience, and level-headed approach as general contractor added a rare, welcoming quality to the entire process, making it much easier for us to work through the design, contracting, and construction phases of the project.

After nearly three years of living in our Blue River home, we can definitely attest to the quality and durability of Tylor's work. His ability to forge strong relationships with sub-contractors and suppliers helped him build a home that remains remarkably energy efficient, mechanically and structurally sound, and resilient to the daily antics of growing children. The true testament of a home builder's capability is the longevity of their final product, and our home still feels and looks like a brand new home.

If you have any questions or need more information, please feel free to contact us at the email address below. Our experiences with Blue River Custom Builders made it easy to recommend Tylor to our friends and associates, and we'll gladly do so again to every potential client. Tylor's work truly speaks for itself, and moving forward with Blue River Custom Builders will help you build an amazing home that will stand the test of time.

Best Regards,

Chris Lombardo & Kiran Naidu
